Cookie policy

Updated: 03/23/2023

This policy should be analyzed and complemented with our [Privacy Policy](#).

What are cookies?

A cookie is a small text file stored by the website on the user's device when he visits it. This file assumes several functions, being able to store, for example, user preferences, login information or information regarding the visit to each site, with the main objective of personalizing and improving the user experience. Cookies can also be used for tracking and analysis purposes, helping in the area of ??content management and updating, as well as understanding how the site is used, thus enabling the presentation of more relevant content for each user.

Despite the importance of these improvement tools, cookies can be deleted by the user at any time.

What type of cookies do we use?

We use cookies with different ways of acting and purposes that we describe below:

1. *Strictly necessary cookies*

These cookies are necessary for the website to function properly and must not be disabled. Normally, these cookies are only set in response to actions taken by the user that correspond to a request for services, such as setting your privacy preferences, logging in or filling out forms. Your internet browser can be set to block or alert you about these cookies, but some parts of the website will not work as expected. These cookies do not store any personally identifiable information.

Name	Use	Duration	Purpose
PHPSESSID	stcp	Session	PHP session Cookie associated with domain embeded content
cookie_popup_	stcp	1 year	Stores homepage popup status
cookie_proximo_	stcp	1 year	Stores the next homepage popup status check date
cc_cookie_consent	stcp	1 year	Stores current domain cookie consent status

2. Analytical cookies

Google Analytics

We use Google Analytics on our pages to help us improve the site. Google Analytics makes it possible to measure and monitor, in aggregate, the performance of the website and how it is used, allowing you to see, for example, which pages are the most visited. This helps to ensure that the most relevant information is provided to the user. Visitors can use this website without loss of functionality if these cookies are disabled.

On this website we use the following Google Analytics cookies:

Name	Use	Duration	Purpose
__utma	google	2 years	Used to distinguish users and sessions. The cookie is created when the javascript library executes and no existing __utma cookies exists. The cookie is updated every time data is sent to Google Analytics.
__utmt	google	10 minutes	Used to throttle request rate.
__utmb	google	30 minutes	Used to determine new sessions/visits. The cookie is created when the javascript library executes and no existing __utmb cookies exists. The cookie is updated every time data is sent to Google Analytics.
__utmc	google	Session	Not used in ga.js. Set for interoperability with urchin.js. Historically, this cookie operated in conjunction with the __utmb cookie to determine whether the user was in a new session/visit.
__utmz	google	6 months	Stores the traffic source or campaign that explains how the user reached your site. The cookie is created when the javascript library executes and is updated every time data is sent to Google Analytics.
__utmv	google	2 years	Used to store visitor-level custom variable data. This cookie is created when a developer uses the _setCustomVar method with a visitor level custom variable. This cookie was also used for the deprecated _setVar method. The cookie is updated every time data is sent to Google Analytics.
